## Why our patients choose us

Our recent survey revealed that most patients choose us because of our clear and affordable all-inclusive pricing.

## Supporting services, research and personalisation

Our service delivery is supported by **London Sperm Bank** whilst our partnership with **London Women's Clinic** provides access to cutting edge research.

## 94% of patients would recommend us to others

I honestly cannot thank the team at Eastbourne enough. We felt listened to and looked after from the second we walked into the clinic. Everyone is caring, kind and very very knowledgeable. Would recommend a thousand times over!

We were treated using Kind iVF at Harrow clinic back in 2023 and were fortunate to be blessed with our little boy in 2024. I found the kind iVF process to be straightforward and honestly such a great experience.

Kind iVF were amazing from start to finish. We started our journey in July and were so fortunate to be pregnant by September! The Tunbridge Wells clinic were amazing, always on hand for advice and guidance and to ease my worries.
